Council Meets to Approve Payroll

Special Session Called Last Night by Finance Committee; 10 Attend

Meeting in a brief, 10-minute special session last night, Granite City council members approved a \$56,008 payroll for the first half of February for 184 employees and officials, including administrative salaries.

Several aldermen termed the special meeting as useless, since a written legal opinion had been given by City Treasurer E. R. "Pat" Rich that the payroll checks could be signed without council approval in advance.

Rich stated Monday that he would not sign the checks without a written legal opinion, and the council's Finance Committee issued the call for the special session Monday afternoon.

Checks Ready Tomorrow

The checks are to be ready tomorrow. The distribution usually is made on the 15th and 30th of each month.

Comptroller Stevens reported he was unable to have the payroll ready for the Feb. 2 regular council session because of being short-staffed due to illness. The council does not regularly meet on the second Monday of the month.

Aldermen Rutledge and Boker, who were in attendance, termed the special session as unnecessary. Rutledge commented, "When I was Finance Committee chairman, the payroll approval by the council was not needed, since there was an obligation to issue the checks on the 15th and 30th of each month. Rich has that legal opinion," he added.

Rich contended earlier in the week that he had been advised to issue no checks unless approved by the council.

Alderman Ninn said he was told by the city auditor that any payroll not approved by the council could not be audited.

Boker told him, "the money was appropriated, and the payroll would have been approved anyway at the next regular council session."

Alderman Moerlein, chairman of the Finance Committee, said at the outset of the meeting that he has always been a custodian of the council to approve the payroll in advance of payment and within its authority to call the special session.

Whitsell Held Winner in 1968 Committee Race

The election nearly two years ago of Arnold Whitsell as Democratic committeeman of Precinct One in Nameki township was set aside by Circuit Judge Michael Kinney at Fairwardsville yesterday to allow an election contest that has been pending in the courts since June 1968.

In his ruling that followed a hearing in which Whitsell's attorney sought dismissal of the proceeding, Judge Kinney ordered that Whitsell's name be expunged from the county clerk's records, having been elected to the committeeman post and that a certificate of election be issued to L. L. Whitsell. Whitsell's opponent in the 1968 election and plaintiff in the election contest was Rich. Because of the time the case has been tied up in the courts, Whitsell has served virtually all of the two-year term to which he was elected.

New Town Clerk

Since the June 11, 1968, primary election in which Whitsell was elected to the committee post, Whitsell has been elected town clerk of Nameki township and is affiliated with other members of the town board making up a political group opposed to the political faction aligned with Nameki Supervisor Harry Briggs. Whitsell was an associate of the Briggs group.

At the present time Whitsell also is a candidate for Democratic committeeman of Precinct One in Nameki township without opposition. Several months ago the county board of supervisors split Precinct One, using part of it to create a new Precinct Eight. Whitsell was a part of the split. Precinct that now is included in the new precinct, Whitsell did not file as a candidate for committeeman this year.

Police To Distribute Traffic Safety Notices

Granite City Police Department is upgrading its traffic safety campaign by distributing pamphlets to traffic violators.

Police Chief Ronald Zeizer, the pamphlets show a wrecked auto sitting on top of a pile of debris. In the background, 1,700,000 Americans who died in traffic accidents.

It is reported the number of persons killed in auto accidents since 1960, and the pamphlet points out that it exceeds the number of Americans killed in action in all of America's wars since 1775, which stands at 65,000.

The pamphlets also offer reminders on traffic safety procedures.

Area-Wide Sewage System Studied

Officials Meet Today To Detail Plea for Federal Study Funds

Major steps in the development of a vast area-wide sanitary sewer system that would serve all four townships of the Quad City area were discussed today to start details necessary to an immediate request for federal funds to finance a feasibility study.

The meeting was scheduled this morning in the offices of the Southwestern Illinois Metropolitan Area Planning Commission at Collinsville.

In addition to representatives of SIMAPC, the session was to be attended by representatives of the East-West Gateway Coordinating Council and the four supervisors of the Quad City area townships: Nelson Haggar of Granite City, Harry Briggs of Nameki, Arthur Moore of Pontoon Beach and Walter Sparks of Chatham.

The four supervisors made up a special committee of the Madison county board of supervisors, which would act as sponsor of the project if it is determined such a large-scale project is feasible from an engineering and financing standpoint.

Want Agency Endorsements

Biggs, chairman of the supervisors' group, said today's scheduled discussions were to induce endorsement of the project to obtain a feasibility study by SIMAPC and by the Gateway Council. He said that the Housing and Urban Development agency, from which funds for the study will be sought, has asked that letters of recommendation be obtained from those two agencies and from the Illinois Sanitary Water Board.

Feder-Huber Furniture Obtains Larger Building

The Feder-Huber Furniture Co. has announced plans to move its store to a new location at N. Third and Delmar avenues.

A lease agreement for the building, which housed a furniture store, has been completed, and the firm should be in operation at the new location by about April 1, according to Homer Huber.

The store will have larger display areas, he said. Feder-Huber has been located in the 1900 block of State street for 25 years.

9 Persons Hurt In 20 Traffic Crashes in Area

Nine persons, including a pedestrian and a motorcyclist, were injured in 20 traffic mishaps occurred in the area.

June Bradley, 43, of 2940 Marshall avenue, complained of pains after she was struck by an auto driven by Larry L. Deuschman, 2338, Kilkenny drive, at 5:30 p.m. Monday at 31st avenue and Nameki road. Deuschman said he did not see her crossing, and the motorcyclist he made a right turn into Nameki road.

Date Collision, 24, of 2300 East

26th street was injured about 3:30 p.m. Wednesday when the motorcyclist he was riding was involved in an accident on N. 31st street near Washington avenue with an auto driven by Michael Patterson, 16, of 2933 Farmington drive.

3 Hurt in Madison

Three persons were treated at St. Elizabeth Hospital about 8:35 p.m. Monday for injuries received when the car in which they were riding struck the concrete retaining wall at the intersection of 18th street and Madison street.

New Organization Proposed Regional Development Stressed at 'VIP' Meet

Formation of a regional community development organization was proposed at a "VIP" dinner meeting and reception conducted by the recently affiliated Regional Industrial Development Corp. and Research Council Wednesday night at Southern Illinois University-Southwest.

The proposed organization, as explained to about 500 persons attending the event, calls for community cooperation and coordination of all local organizations that serve various parts of the region, according to John D. Black, general chairman of the RIDC Research Council.

Deadline Mar. 31 For Homestead Tax Exemption

Granite City Township Assessor James Burton is advising persons 65 years of age or older before Jan. 1 that they have until March 31 to file for the \$100 homestead exemption.

"Contrary to persistent rumors, you do not have to be retired in order to qualify for this tax benefit. The law is not based on your need for financial assistance, and taking advantage of this exemption will in no way place any lien on your property," Burton said.

Overall Problems

He noted some problems facing regional growth are being studied by the East-West Gateway Coordinating Council and others but need strong regional support for implementation.

Included were improved highways, rapid transit, regional law enforcement programs, better cultural, recreational and educational facilities that benefit and serve the entire region.

Widespread support on

"a truly regional basis" was emphasized to tackle community development problems as well as industrial and economic growth.

It was pointed out that though the Bi-State region is growing, it is doing so at a much slower pace than competitive metropolitan areas.

Guns, TV Set, Cash Taken in House Burglaries

Thieves looted homes of guns, a television set and cash and also stripped trucks of two-way radio equipment in thefts reported to local police this week.

A nine-inch television set valued at \$90 was stolen in a burglary at the home of Lesley Shelton, 2540 (r) Washington avenue, after 7:15 a.m. Tuesday, he reported three hours later.

Entry was gained by knocking a padlock off a door with a hammer taken from the home of Paul Harshany, located at the front of the lot. The hammer was found at the rear of the building with the handle broken.

Six guns in a bedroom closet, valued at \$315, plus \$4 in coins and personal checks were stolen in a burglary at the home of John Morgan, 2510 Nameki road, after 6:30 p.m. Sunday, he reported Monday. Entry was gained through a basement window, he said.

Lost Zimring Trucks

Thieves climbed over the east fence of the Zimring Vending Machine Co., came drive at Farmington street in Macomb Industrial Park at Madison, and looted two trucks of radio equipment, tools and other articles. Madison police reported yesterday. The theft occurred late Tuesday night or early Wednesday morning, officers said.

The intruders broke the right window of one truck from which they stole tools, 1-ft lights and other items belonging to Melvin Davis, 2728 Denver street, and removed the two-way radio equipment, police said. They broke the right door window of another truck in which they took the radio equipment.

Microphones and radio

equipment were stolen from two trucks parked at the Reeves Concrete Co., 2801 Circle street, he reported at 8:45 a.m. Tuesday.

2nd Suspect Arrested

A second arrest in connection with the burglary last Monday morning of the Venice-Madison American Legion Post 307 home has been made. A man named Morgan, executive director and Maurice Davis, attorney.

Assistant Chief of Police

Raymond Bradley said that Eugene Dubois, 21, of 2100 Sixth street, Madison, is being held in the county jail following the burglary.

Venice Park Board Names Acting Supt.

Willie E. Spencer, 101 Weaver street, Venice, was named acting superintendent of the Venice Park district board last night to serve as acting park superintendent to fill the vacancy created by the death of Marvin G. Morrison, superintendent of parks for many years.

Morrison, a long-time employee of the Venice park district, had been handling the late Mr. Grogosh's duties during his illness. The park board was notified, and will continue to do so.

The board also adopted a new policy to limit the loan of park district trucks, tools or other equipment only to the city of Venice or the Venice school district, and then only on direct request by the proper officials of those agencies.

200 More Units for Elderly Proposed

GC Housing Authority Seeks U. S. Approval, Cites Many Requests

The Granite City Housing Authority at its February session Tuesday evening adopted a resolution to apply for federal financing to construct 200 additional apartments here.

The application will specify housing for the elderly. No other details were included in Tuesday's action, and decisions remain to be reached on the size and shape of the buildings, the location and design details.

There has been discussion in the local community in recent weeks of the possibility of establishing a high-rise public housing development for senior citizens adjacent to the downtown business district.

Utilization of multi-story housing can enable land cost per apartment to be kept at an acceptable level despite selection of a relatively valuable site, it is believed.

Considered Secure, Quiet

While high-rise apartments are considered to have a number of drawbacks for families, limitation of the project to elderly individuals and couples presents a different situation, commissioners have noted; an increasing number of senior citizens seek high-rise units as providing added security and quiet.

The action was taken after reports in conferences in Chicago Jan. 29 with officials of the U. S. Housing and Urban Development Department and with officials of that department's Housing Assistance Office. Both have regional headquarters in Chicago.

Those making the trip were

Ernest E. Veihl Jr., Housing Board chairman; David Morgan, executive director and Maurice Davis, attorney.

Also present Tuesday night were Vice-Chairman James C. Plaff and Frank Fueszery, the other commissioner is Earl Thompson.

Regional representatives

either encouraged nor discouraged by a discussion of the conferences brought out.

Anti-inflation Efforts

The federal anti-inflation program has reduced spending in some fields, but the possibility of proceeding with new apartments for the elderly here has been ruled out.

Commissioners pointed out that while they will attempt to speed up the program, its exact timing will depend greatly on decisions in Chicago and Washington and possibly on the trend of the national economy.

The 200 new units would increase to 831 the number operated by the Granite City Housing Authority.

It has 481 general apartments at Kirkpatrick Homes and 200 designated for the elderly at The Anchorage. A backlog of (Continued on page 5, col. 2)

Madison Industrialist Buys Battered 'Santa Maria'

"This ship is going to look like the lady she was when she came out of the shipyard," Sam Fox, president of Fox Industries, Madison, said yesterday in discussing his purchase of the derelict Santa Maria, replica of Columbus's flagship.

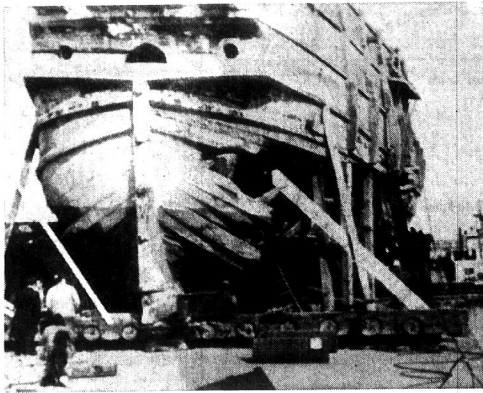

Admitting that restoration of the badly-damaged vessel presents problems, Fox said his firm has undertaken more challenging ventures and expressed confidence the Santa Maria again will be a noted tourist attraction.

Fox purchased the ship this week for \$1 plus 10% of any profits received following its restoration from the Santa Maria Corp., a group of St. Louis businessmen.

The battered ship, built in Barcelona, Spain and brought to New York for the 1964 World's Fair, was purchased by the St. Louis group last year and arrived in St. Louis on March 29.

Damaged June 28

On June 28, the Santa Maria was torn loose from its St. Louis waterfront mooring in a violent storm and it sank downriver on the Illinois shore with a large hole in its hull. The ship was raised July 8 and efforts began to find a ship-

City's Clean Air Board Plans to Update Standards

Updating Granite City's air pollution control ordinance to comply with new state requirements and future standards was proposed last night during a meeting of the city's Air Pollution Control Board.

Prof. Edwin Hoelscher, technical secretary for the local board, was instructed to review the city's present air control ordinance based on the 1967 state standards and compare them with the present and forthcoming state requirements. He was asked to present the results of the board at its March meeting.

At that meeting, the commissioners will study needed changes before making any recommendations to the city council for amendments to the city ordinance.

New GASP Organization

Last night's board meeting was visited by C. Dana Eastman, assistant attorney general for air pollution matters in

Contract Let for Work At Port Office Site

A contract with A. H. Seebold Co. to build access roads, provide grading and septic tank installation and other work for location of an office structure at the Tri-City Regional Port in Granite City. The contract was approved by the Port Authority Board in regular meeting Monday.

The trailer type building which will house Port Authority offices here of Bulk Service Corp. will move to its new location from Riverside, Ill., is expected to be delivered about March 1.

Eastman explained that under recent legislation, the attorney general's office is taking a more active role in pollution matters. He asked for copies of any complaint notices made by the local board related to individuals. Eastman noted that dual authority involving the local and state clean air boards makes any action by the attorney general's office more difficult.

MORE ABOUT Clean Air

cooperation from local industries. Board Chairman Henry Bienecki replied that in several cases, the manufacturers have provided excellent cooperation and had installed equipment going beyond standards now set by the state.

As examples, he mentioned American Steel Foundries and Union Division of Miles Laboratories.

However, even with the cooperation Bienecki said, the city's four-station monitoring system has shown little or no change in lowering particulate materials in the air.

Air Still Not Clean
While the state has set the average to be 75 micrograms per cubic meter, Granite City is averaging 225 with a peak of 500.

When Eastman asked if complaints to the board centered on Granite City Steel Co., Bienecki said most of them did. He called upon Prof. Hoelscher for a report.

Hoelscher said a month ago, police took pictures of dense smoke coming from a stack at the blast furnace plant of the steel firm and that he had taken pictures on three other occasions.

"Copies have been sent to the steel mill officials, and with the third notice the firm was advised a formal complaint would be filed with the occurrence of the next obvious violation. So far we have received no reply from the company," he added.

Home Paint Damage
Reporting on a damage to homes along East 24th street about two weeks ago, Prof. Hoelscher said he was able to determine the paint was bleached by hydrogen sulphide but was unable to pinpoint the source.

Hoelscher said he called for readings from the recorder on the stack at Granite City Steel's plant.

MORE ABOUT Area Sewers

and that support from that agency has been assured.

The move to develop a joint four-township sewer system resulted several months ago from discussions by Briggs with HUD officials in Chicago where Briggs had gone to confer with federal officials on Nameoki township's chances for a federal grant to finance sewer line installation in State Park Place.

Favor Large Projects
Briggs said he was told by HUD officials at that time they were inclined to discourage small individual projects creating sewer installations on a piece-meal basis, but that they strongly favored major projects serving large numbers of persons.

The Nameoki supervisor reported the incident to the county board along with the suggestion that the county look into the potential of sponsoring major sewer projects in unanswered areas of the county. The county board then created the special committee of the four Quad-City area supervisors to initiate such a project for Granite City, Nameoki, Venice and Chouteau townships.

Since then, Briggs said, growing interest in the idea has resulted in a number of inquiries by supervisors of other townships where there are no sewage disposal facilities. He said he is certain other major projects will develop, depending upon success of the Quad-City project.

Cost Not Known
"We have no idea now what such a project would cost nor how vast an engineering job it will be," Briggs said. "To determine all that would be the objective of the feasibility study which also would consider means of financing."

After today's meeting, Briggs and Schooley said, arrangements will be made for the committee to go to Chicago to submit an application to HUD requesting funds for the feasibility study.

The Nameoki town board Monday night authorized Edgar Patrick, Nameoki township collector and chairman of the Township's Citizens Committee on sewer programs to accompany the group to Chicago. The board also approved payment of transportation costs for the trip for Patrick.

blast furnace plant where gases are burned, but was advised the recorder, which determines if the flare is burning, has been out of order for three months. "They are to advise me when it is repaired," he told the board.

Bienecki said a request will be made for the company to supply the board with weekly reports from the recorder.

Prof. Hoelscher said a violation was noted last week at Lipsett Steel Products, where boxcars are burned. He said the firm's six-month variance, granted by the city to permit burning only when winds are from the north or northwest, is due to expire next month. A company official advised him that foremen at the plant were informed the violation was not to occur again.

MORE ABOUT Whitsett

both parties in the March 17 primary.

Judge Kinney based his ruling yesterday on the election jury contained in a "discovery record" that was made by the county canvassing board June 28, 1968, in response to a petition by Whitsett, who challenged the results of the Precinct One committee election.

Record Favored Whitsett
Although the official canvass had declared Rutherford the winner and he had been issued a certificate of election, the discovery record showed 300 votes for Whitsett and 289 for Rutherford, according to testimony in the hearing before Judge Kinney yesterday afternoon.

Rutherford originally was declared elected by a majority of only five votes. Before the discovery record, Rutherford was credited with 282 votes to 277 for Whitsett.

Judge Kinney said he would reject the tally of the discovery record as "the best available evidence," since the ballots cast in June 1968, election were not available for an actual recount. The fact that the ballots were no longer available was learned by attorneys only a matter of hours before the hearing was scheduled.

Nick Vassileff, Madison attorney representing Rutherford, made repeated attempts to prevent admission of the discovery record tally as evidence but was overruled each time by Judge Kinney, who, at one point, noted that the tally sheets "speak for themselves."

Stored in Vault
County Clerk Eulalia Hotz was the principal witness during the hearing. She testified that following the June 1968 election the ballots were stored on the third floor of the court house, but that it became necessary to clear out the vault to make way for newly printed ballots and other supplies necessary to the November 1968 general election.

She told the court she checked with the circuit clerk's office and was told that at that time there were no orders that would hold up disposition of the old primary ballots. She said all of the ballots in the vault was destroyed. It was not until later that a court order involved in an appeal of an election contest ruling was issued, directing that the ballots be impounded.

Miss Hotz identified members of the canvassing board who made the discovery record and explained how the tally was made. She also explained to the court the method of the discovery record as 300 ballots in favor of Whitsett and 289 for Rutherford.

Admitted as Evidence
Vassileff objected to admission of these facts as evidence on the basis of a statute regarding election contests which, Vassileff said, provides that discovery record tallies shall not be binding upon the court.

Judge Kinney, however, admitted the tally sheets as evidence.

The election contest case originated when Whitsett sought the discovery record immediately after the June 11 primary election in 1968 which showed a majority of votes for Rutherford. When the discovery record revealed a change in the majority to Whitsett's favor, Whitsett filed an election contest proceeding calling for an election recount in circuit court.

Rutherford, as respondent in that case, filed a motion to dismiss Whitsett's proceeding on grounds that it failed to properly state a cause of action. Circuit Judge I. H. Streep upheld Rutherford's motion and dismissed Whitsett's petition.

Whitsett then appealed the circuit court dismissal to the appellate court where the case remained until a decision was

handed down in early January, this year, holding that the circuit court had erred in dismissing the case and remanding it to circuit court for further hearings.

May Appeal Ruling
Vassileff indicated that an appeal of Judge Kinney's ruling may be taken. After the court announced its ruling yesterday, Vassileff remarked, "It looks like the appellate court will get a second chance at this case."

Rutherford took the stand only briefly during the hearing to testify that he did not receive a letter notifying him of the hearing for the discovery record. He identified a letter sent to him by registered mail by Miss Hotz. While the letter after the discovery record was dated June 24 and notified him of the hearing on June 28, Rutherford said he received a notice that registered mail was being held for him at the Granite City post office on Friday, the same day that the hearing was held.

He said he went to the post office that same day, but was too late to get the letter. He said he did not get it until the following day, June 29, the day after the discovery record was made. Miss Hotz had testified earlier that Rutherford was not present at the discovery record.

'Santa Maria'

building yard to undertake repairs.

When none could be found, the corporation's stockholders offered the ship for sale, but had opened Dec. 18 proved unsatisfactory.

Commenting on how his firm had been able to locate the Santa Maria, Fox said he had always assumed the ship would be rebuilt, even after he had read that a number of shipyards had refused to subside bids for repairs.

"One day, I saw an article stating the Santa Maria was an absolute black case... it had been rejected by the National Museum of Transportation because of its condition. It was then that I realized the ship was not to be repaired. I decided it might be a project for our company."

add-Madison Industrialist, who had been visiting the Santa Maria, currently strapped onto a stretcher, gathered in a city near the foot of Sidney street, St. Louis, the group entered the vessel through a large hole in the hull. The sight was terribly depressing. Our first thought was that she was beyond repair.

"Not Beyond Repair"
"However, as we inspected the ship more thoroughly we came to the realization she was not beyond repair and enthusiasm among our small group of investors was kindled."

Nothing that restoration of the ship was a very exciting challenge," Fox said. "We also felt the ship is a sound business investment because it certainly is a fantastic attraction."

For the few weeks it was open here, it was toured by many thousands of visitors.

"Because of its historical significance, we believe people throughout the country would be interested in seeing it."

"Fox Industries is involved in several diversified operations, including the 54-acre Fox Industrial Park development in Madison, the manufacturing of concrete-hardening and waterproofing additives through its wholly owned subsidiary, the Tronite."

Firm Employs 75
The company, employing 75 persons, was founded in 1951 by Sam Fox, president, and his brother, Irwin Fox, vice-president.

Both Fox Industries acquired an interest in Metal Service Corp. and was instrumental in the company's acquisition of the Alcan Aluminum Corp. steel processing plant, a tenant in Fox Industrial Park, Madison.

The Santa Maria's new owner is a 1951 graduate of Washington University. He and his wife and their five children, ranging in age from a four-year-old girl, who thinks she's a teenager.

"The hardest part of the enterprise was to get the ship seaworthy. He and his wife were swearing the children to secrecy and having them keep quiet about the purchase. They overcame people and materials nearly two weeks and, because the announcement had to come from an appropriate authority, they were cautioned not to tell their friends."

On Monday, I gave them permission to tell the story at school, at 2 p.m. Tuesday, the same time the formal announcement would be made. Mayor Cervantes and Anthony Sansone, Santa Maria Corp. president. Each child came home Tuesday afternoon and reported that none of their classmates would believe their daddy bought the Santa Maria. It was a little disappointing to them."

Work Has Started
Fox said work has already started on the Santa Maria. The debris-strewn hull is being cleaned out and measured in order to make plaster molds to recreate the ship's ribs.

The hull was made to the shipyard in Spain that built the vessel for the original plans, and an expert from the Smithsonian Institution in Washington, D. C., who served as a consultant to the ship's builders, has pledged complete cooperation in the Santa Maria's reconstruction.

"Although damage is extensive, and studies have not yet been completed, we are hopeful the Santa Maria can be repaired by July 4," he said. He pointed out that the keel or main beam of the ship is intact and, when the ribs have been replaced, the ship will be structurally sound.

"Once that is done we can make the ship water tight so that it can float. If we decide that is the best way for public display. That decision will be made when our master plan is completed," Fox said.

The new owner said he plans to apply immediately to the St. Louis Board of Public Works for a permit to display the ship in the city.

Special Drive Feb. 16-27 Due to 'Worst Storm Ever'

The extent of disaster relief resulting from Hurricane Camille, which struck the Gulf Coast of the U. S. Aug. 17, is so immense that a special fund drive will be conducted by the Tri-City chapter of the American Red Cross Feb. 16-27.

L. Gillie, chapter president, called chapter directors' attention Tuesday afternoon to the fact that Camille was "the greatest storm of any kind that has ever affected this nation, by any yardstick it could be measured with."

"Experts could hardly believe reports of 210 miles-an-hour winds from a hurricane hunter plane flying through Camille's center. Many on the Gulf Coast died because they found the forecast of 20-foot storm tides incredible."

"The Gulf Coast died because they found the forecast of 20-foot storm tides incredible. Camille," Gillie said in citing unprecedented destruction statistics, including more than 200 deaths, 176 injuries and 622 injured persons.

The fund drive will be held at the Tri-City chapter of the American Red Cross at the American Red Cross at the local share of a special \$15 million fund donated to the Gulf Coast by the American Red Cross.

In other business at the chapter meeting, held at the Trust and Savings Bank, Mrs. Ruby Overbeck, executive secretary, reported 205 office contacts in January, with financial aid to 100 military families totaling \$460.

Mank Discharged As Police Officer, To Appeal Case
Patrolman Louis Mank was discharged from the Granite City police department by the Board of Fire and Police Commissioners Monday night following a series of hearings.

The board had found Mank guilty of six of 13 charges which had been filed against him by Police Chief Ronald Vetter. The effective date of the discharge is last Dec. 13, the day Mank was suspended from duty by Chief Vetter.

Mank's attorney, Lance Callahan, said that the case will be appealed to Madison county circuit court.

The board found the patrolman guilty on one charge involving a part-time job held at the Gen store in Namekiss town, but that charge was dropped because of unbecoming an officer, and others charging insubordination and general inefficiency.

Meanwhile Richard Bell, vice-president of Illinois Council 44, American Federation of State, County & Municipal Employees, reported that arrangements have been made with the state council to obtain legal and financial aid for Mank.

He also said that legal assistance has been arranged with the state council to handle a jurisdictional dispute with the city in which two women have been assigned to work the police desk. The jobs previously were performed only by police officers.

90% of Growth Will Come from Within-Percy

The best source of future growth of the Bi-State metropolitan area will come from expansion of current business and industry here now, U.S. Sen. Charles H. Percy (R-Ill.) told members of the Regional Industrial Development Corp. and Research Council.

Guest speaker at a dinner meeting Wednesday night at SIU-SW, Sen. Percy estimated that at least 90% of future regional development will come from within.

He stressed proper development of regional assets, including industrial expansion, the transportation system and available labor.

"The community should be the trans-shipping center of the country," he said, prefacing the remarks with the comment that transportation and terminal systems must be kept up to date.

Coach Bill Ohlendorf of the Red Devils felt that "we played about as poorly as we know how. We made mistakes and had a poor defense. We gave them the ball on turnovers 27 times. All night, we didn't think. We just didn't go to play basketball."

The Devils led with quarter scores of 16-13, 37-29 and 50-43. Game scoring honors went to Westlin's Beatty with 28 points and he paced the surge that achieved a 66-48 tie.

708 Board Studying New Advisory Plan

The Madison County 708 Mental Health board tabled for further study Tuesday night a proposed new contract which would define the 708 board's relation to the county's mental health agencies which are funded in part with tax monies administered by the 708 board.

While the board appeared ready to approve the contract during its regular meeting, several board members called for further study because of a clause calling for an advisory board intended to serve as a liaison group to bring together both professionals and laymen involved in the mental health field.

The board decided to hold up action on the contract until Rulpi Yemm completes a study of similar contracts in other counties throughout the state.

Members agreed to vote again on the contract proposal after Yemm's study is completed.

Charges Filed After Window Smashing

John Ballentine, 26, St. Louis, was held by Madison police this morning on charges of disorderly conduct and destruction of property after a concrete block was thrown through the front window of Johnny Lewis, tavern at Fourth street and Madison avenue about 2:50 a.m.

Police were notified of the incident by a witness who said he had seen a 1960 model auto stop on Fourth street on the north side of the tavern. Two men got out and one of them, carrying a concrete block, walked to the front of the tavern where he tossed the block through a 44-foot plate glass window. The men jumped back in the car which sped away, the witness told police.

About ten minutes later the car was sighted on Edwardsville road and McCambridge avenue and was stopped by police. All three occupants were taken to police headquarters where, police said, Ballentine was identified as the person who had thrown the block. The other two men were released.

ing his arrest late Monday afternoon after police had captured Jerry W. Coggins, 21, of 2710 Denver street, at the scene of the burglary about 2:40 a.m. Monday.

Authorities said that both Coggins and DuBois are charged with four separate charges of burglary as the result of investigations that followed arrest of the two men. Both Coggins and DuBois are charged with the break-in Monday morning at the Legion home, the burglary of the Legion home on Feb. 2 when a number of coin-operated machines were looted, the burglary of Curlee's Confectionery, 313 Weaver street, on Jan. 14, and a second break-in at the same confectionery on Jan. 8.

Coggins was arrested early Monday morning by Venice police officers who said they discovered him at the rear of the Legion hall by a car into which a box of bottles of whiskey and other liquor was stacked by the seven door. The officer safe also had been rolled to the back door.

Coggins was arraigned in magistrate court Monday afternoon and released on \$20,000 in recognizance bonds. DuBois was arraigned Tuesday. His bond was set at a total of \$40,000 and he was transferred to the county jail.

The third man sought by Venice police, also a Granite City man, is named in a warrant charging only the break-in at the American Legion home last Monday, police said.

Food Stamp Program Aids 181,000 in State

Over 181,000 persons in the 103 Illinois counties received food assistance through the U. S. Department of Agriculture's Food Stamp Program during December.

Dennis M. Doyle, midwest regional director of the Food and Nutrition Service, said the total included 164,967 persons on public aid and 16,037 other low-income persons. During the month, Illinois participants received a total of \$3.7 million worth of food coupons of which over 897,000 were bonus coupons. This was a bonus average of \$3.38 per person.

By participating in the Food Stamp Program, low-income families can buy more food by receiving five amount of money they normally spend on food for coupons worth more than that price. Recipients spend coupons just like cash at authorized retail food stores to buy domestic food.

Most Blame Factories For Air Pollution

Questionnaires in which the public is given an opportunity to express its views concerning air pollution will be being received at the office of State Rep. Horace Calvo (D-Granite City) who is making the survey to determine possible guidelines for future anti-pollution legislation.

Calvo's office said a large majority of the forms which were published in the Press-Record so that they could be filed in and mailed to Calvo's office, list the larger manufacturing plants as the principal contributors to air pollution. Only a few mention autos and buses as a major source of pollution, while a fair attribute pollution to open burning of trash and rubbish.

Rep. Calvo is state chairman of a joint legislative committee which has been conducting hearings to determine causes and possible solution of air pollution problems. The committee is to report to the legislature which is to convene this spring.

MANUFACTURERS' ASSOCIATION new president (right), Paul Kemp, plant manager of A. O. Smith Corp., being congratulated by the retiring president, A. O. Smith (center), and B. J. Hunter, first vice-president.

Manufacturers' Association Elects Officers

The board of directors of the Manufacturers' Association today elected Paul Kemp, plant manager of A. O. Smith Corp., as president for the 1970 year.

Other officers are B. J. Hunter, vice-president-domestic operations; Union Division, Miles Laboratories, first vice-president; Richard Lich, president, Castings Division; General Steel Industries, second vice-president; Robert Schuessler, plant manager, Nestle Inc., treasurer; and William E. Heischler, general manager of the association secretary.

Retiring President A. P. Sonnenhauser, works manager of American Steel Foundries, has served as head of the manufacturers' organization for five years from 1967 through 1969.

"The most familiar argument for lowering the voting age is that anyone old enough to be drafted should be old enough to vote. About half the U. S. servicemen killed in Vietnam were too young to vote.

"I think there is a better argument, which has nothing to do with the war. I think young people today, at 18 are better educated, better informed and more mature than young people of 21 were when the 1970 Constitution was written.

"Today, nearly all 18-year-olds have a complete high school education. In 1970, hardly any 21-year-old had a complete high school education.

"If a new Constitution should drop the voting age to 18, more than a half million new Illinoisans would become eligible to vote.

Mental Health Needs Cited by County Group

Needed improvements in the children's program, staff and transportation are being cited by the Madison County Mental Health Association and the staff of the county unit at Alton State Hospital.

At a recent meeting of the association's board of directors, staff members, it was determined that the main critical problems were the lack of a sufficient staff and a vehicle to provide transportation to be assigned directly to the children's program.

The association currently is working on an evaluation of the children's program to see where the greatest needs are in the areas of staff, equipment and facilities, and if some of the needs might be met by the community.

Mrs. Connie Winslow, director of the children's treatment center, noted that the county averages 30 children and all are scheduled into a daily special education program in Alton schools except for six.

"Where children are involved, the need is immediate," Winslow said. "If an activity is planned in the community, we need transportation. Children going to public school need to be delivered and picked up."

When a mental patient is discharged from the state hospital, a community worker follows the case with the patient and his family or other agency, but such sharing of the lead with the community in a child's program is not adequate.

It was suggested that the association form a citizens' advisory board to strengthen communications between the community and staffs of the hospital programs.

Con Con Asked By Official to Lower Voting Age

Michael J. Howlett, state Auditor of Public Accounts, today testified before the subcommittee of the Illinois Constitutional Convention to urge lowering of the voting age by constitutional revision.

Speaking at a hearing of the committee in the Conrad Hilton Hotel, Howlett said:

"The proposal to lower the voting age is one of the simplest and most reasonable of constitutional issues to be considered by the convention. The voting age is now fixed at 21. I believe it should be reduced.

"Until world war II every state in the union required voters to be at least 21. In recent years, a movement has been gaining strength to lower the voting age to 18. The late Sen. Dirksen of Illinois was for it. A national committee appointed by the late President Kennedy recommended it unanimously.

"Congress authorized the 18-year-old vote during world war II. Kentucky took it up in 1955. Four other states have set a minimum voting age of less than 21. It is 20 in Hawaii, 19 in Alaska.

"The most familiar argument for lowering the voting age is that anyone old enough to be drafted should be old enough to vote. About half the U. S. servicemen killed in Vietnam were too young to vote.

"I think there is a better argument, which has nothing to do with the war. I think young people today, at 18 are better educated, better informed and more mature than young people of 21 were when the 1970 Constitution was written.

"Today, nearly all 18-year-olds have a complete high school education. In 1970, hardly any 21-year-old had a complete high school education.

"If a new Constitution should drop the voting age to 18, more than a half million new Illinoisans would become eligible to vote.

Bubblemaster Club to Sponsor Explorer Post

The Bubblemasters' S. C. B. Diving Club will serve as the sponsoring organization for Explorer Post 24, a group of Explorer scouts from the Granite City area, it was announced this week by Dr. Chris Geroff, club president.

Members voted to act as sponsors at a meeting held earlier this week at the YMCA, at which Bill Irelan, Chalko Mound Boy Scout Council officer, explained the Explorer program and outlined responsibilities of a sponsoring institution.

The scout executive noted that primary interests of youths active in Post 24 are connected with skin and scuba diving and spelunking (cave exploration). Activities which present a compatible relationship to the recreational interests of Bubblemaster members, he pointed out.

Barry Maycock, club vice-president, conducted the business session and introduced Irelan. Two divers, accepted as new members, were Judy Rill and Richard Ruppel.

A large group of local divers is expected to attend the annual installation dinner of the St. Louis Scuba Association on Sunday, Feb. 22, at Holiday Inn, Interstate 70 and Lindbergh Blvd., St. Louis county, Maycock said.

Reservations for the dinner still may be made by calling Neil Winters, at 877-5365, the officer said.

Jos. Poeling, 75, Retired General Contractor, Dies

Joseph W. Poeling, 75, of 2416 Edwards street, a retired general contractor, died of cancer at 3 a.m. Tuesday at the John Cochran Veterans Hospital in St. Louis. He had been in failing health for two and a half years and hospitalized for two weeks.

Mr. Poeling was a carpenter by trade and was self-employed during the 43 years he had lived in Granite City. He was born in Portage Des Sioux, Mo.

A member of Sacred Heart Roman Catholic Church he also belonged to the VFW Post 1300, Forty & Eight, the Last Man's Club and was a past commander of American Legion Post 113.

Survivors include his wife, Betty; two brothers, Peter Poeling of Hamel, Ill., Al Poeling of Portage Des Sioux, Mo.; three sisters, Mrs. Ida Stenger of St. Charles, Mo., Mrs. Agnes Koeffer of Godfrey, Ill., and Mrs. Vince (Sally) Nease of Alton, and several nieces and nephews.

Funeral services were conducted this morning. Arrangements are given in today's obituary column.

Hole Shot in Window

A hole was shot through the east window of the Madison Fina service station, Edwardsville road and McCambridge avenue, between 5 p.m. and 1 a.m. Tuesday. It was reported to the Madison county sheriff's office. The bullet hit an oil can but did not penetrate it.

Confidential Help for Drug Users Available

Help for narcotic users and accurate information about drug abuse is available on a "strictly confidential" basis by calling 576-2383 and asking for Mrs. Douglas.

Persons having knowledge of drug misuse and abuse may also call the number and report the information without giving their names. The service is open to all Quad-City area residents.

Unless a caller wishes a record kept for reasons he may choose to divulge, no one is required to identify himself, or is induced to do so.

Counseling can be arranged for those who wish it, complaints may be registered, rumors stopped and information

furnished about illicit drug activities followed through with investigation by the appropriate authorities.

Since the "strictly confidential" service was initiated on Jan. 12, more than 100 contacts of a varied nature have been made through the program, sponsors are able to report without revealing names or other possible identifying information.

Special arrangements can be made for those seeking counseling or personal contact, without fear of publicity or notoriety, it is stressed.

A former narcotics addict, working with the telephone service program, is available to talk with young people or older persons needing help.

Two Plead Innocent To Burglary Charge

Two burglary suspects from St. Louis pleaded not guilty in initial court appearances Monday before Magistrate Matocson, and preliminary hearings are to be held later in Edwardsville.

They are Vernell Garrett and David F. Qualls, both 21, who were arrested early Sunday following a break-in at the Sunplus store in Granite City. Bonds were set at \$25,000 for Garrett, who was taken to the Madison county jail, and \$15,000 for Qualls, who was taken to the Alton State Hospital.

Flood Disaster Aid Allotted GC, Levee District

The Office of Emergency Preparedness has issued through the Illinois Department of Civil Defense checks of \$41,500 for Granite City and \$111,700 for the East Side Levee and Sanitary District, according to a joint announcement at Washington Tuesday by U. S. Senators Ralph T. Smith and Charles Percy of Illinois.

The money has been allocated under the disaster aid program initiated by Illinois Gov. Ogilvie to aid public agencies in repairs of damages to drainage systems, sewer lines and other public property as a result of flooding caused by heavy rains in July, 1969.

The \$41,500 check to Granite City is in addition to an early allotment of \$80,000 received by the city in January. The allotment is the first paid directly to the levee district, but the Army Corps of Engineers is to handle repair of the break in the Madison 84-inch water sewer trunk at a cost of about \$130,000.

Levee district officials said yesterday that part of the \$111,700 will be used for partial payment on a \$168,000 bill owed for repair of two major breaks in the Catokis and Centerville township sanitary sewer lines in St. Clair county. That work has been completed under an agreement calling for part payment of the bill out of the first allocation of disaster aid funds.

Part of the \$111,700 allotment also will be used to pay costs incurred in the Madison county portion of the district which entailed extensive pumping operation in the Dobrey Slough and North Granite areas that suffered heaviest from last summer's flooding.

Granite City allocations under the disaster aid program will be applied toward mounting costs for repairing the numerous sewer breaks that have developed during the past year.

At the same time, levee district officials agreed to undertake development of a drainage project in the Dobrey Slough area where many homes were damaged by flood waters that backed up in the slough last summer.

At the urging of William "Mike" Ebersoldt of Venice, Madison county member of the levee district board of trustees, the board has adopted a resolution instructing the district's engineering department to begin an immediate survey and preparation of plans for alleviating the flood dangers of Dobrey Slough.

The study and planning is to be completed as soon as possible and a report made to the board. Financing of such a project will be done out of project funds set up in the 1970 budget adopted by the levee board Monday.

Doctor Joins Staff at Alton State Hospital

Dr. Viktor Smicklas has joined the medical staff of Alton State Hospital and will be assigned to the Madison county unit. It was announced today by Dr. Abraham Simon, superintendent.

A native of Topice, Czechoslovakia, Dr. Smicklas is a Canadian citizen and has served at Provincial Mental Health Hospital in British Columbia. He was educated in Italy, interned in Chicago and had a residency in psychiatry in Colorado.

LOOKING AHEAD TO SPRING. Models Shirley Milne and Bonnie Ford display two dresses from a collection of spring-summer fashions to be presented at 2 p.m. Sunday at Madison Polish Hall in the Elite Hairdressers' "Beauty-Fashion Show."

EHA Beauty-Fashion Show To be Presented Sunday

A "Beauty-Fashion Show," set for 2 p.m. Sunday, and free beauty services for senior citizens at area nursing homes and children at orphanages, are events sponsored this week by the Elite Hairdressers' Association, Affiliate 33 of Granite City, to commemorate National Beauty Salon Week.

Climaxing the week-long observance, Affiliate 33 members will present the annual "Beauty-Fashion" show at the Madison Polish Hall, 826 Greenwood street, Madison, at 2 p.m. Sunday.

The program will combine the latest trends in hair specialties, created by local specialists, and spring-summer clothing styles, provided by Elite Shop, 19th street and Edison avenue. Clothing fashions will range from casual and sportswear to "after five" frocks.

Additionally, show patrons will view a "fantasy segment" in which the creativity of hair stylists is enhanced by models attired in costumes from the world of make-believe.

Mrs. Valerie Evenden and Art Parsons will be emcees for the two-hour show.

A new attraction this year will spotlight members of the East Bank Players dancing chorus, presenting revue numbers from the Players' forthcoming production "Guys and Dolls."

Models will include Carol Lane, Diane Meares, Carolyn Farrell, Marilyn Overby, Pam Morrison, Maria McMurtrey, Karen Bridick, Jolynn Shier, Janet Yost, Pat Kalps, Martha Smith, Donna Epperson and Midge Epperson.

Stylists are Judy Bruchow and Sue Cook, Na-Bar-Hood Hair Fashions; Mauri Dieck, Erma Hinton, Glen Carbin, Julie Prescott, Pat Kalps, Cultures; Shirley Sanders, Cut and Curl; Namiki Collinsville, Betty Smith, Collinsville; Mary Scarsdale; Dorothy Line; and Marcelle Tucker, Granite City School of Beauty Culture; and Babe Johnson, Madison Eye Clinic and Carolyn Campos, Babe's Salon of Beauty.

Creating high-fashion styles for the fantasy number will be Sue Cook, Erma Hinton, Doris...

Cachet Services for Apollo 13 Moon Shot

Manned Spacecraft Recovery Forces of the U. S. Navy will provide, on a non-exclusive basis, cachet and cancellation services for the upcoming Apollo 13 manned space flight to the moon.

Philatelic coordinators designed for the Atlantic and Pacific Fleet Recovery Forces (Task Force 140 and 130) will receive all such covers and make distribution to assigned ships.

To permit adequate time for required handling of covers, collectors should send pre-addressed, self-addressed envelopes to the appropriate coordinator at least three weeks prior to the scheduled launch date for the mission. For the scheduled April 1970 launch of Apollo 13, covers should be forwarded prior to March 23.

In accordance with U. S. Post Office Department Regulations, only United States postage may be used on covers submitted. Stamps (postage) of other countries or the United Nations cannot be used. Cash, money orders or checks in lieu of postage cannot be accepted. It is requested that collectors furnish standard size covers (5 inches by 6 1/2 inches) with a 1/2 inch margin to simplify handling.

Addresses for the Atlantic and Pacific area Coordinators are: Apollo 13 Covers, Manned Spacecraft Recovery Force, Atlantic Building SP-71, Naval Air Station, Norfolk, Va. 23511; and Chief in Charge (Apollo 13), Navy Terminal Post Office, FPO San Francisco, Calif. 96610.

Shirley Sanderson, Marcelle and Earl Tucker and Stanley Coleman, whose models will include Cathy Leggans, Donna Durham, Bonnie Ford, Robert Robbins, Donna Mendoza, Sheila Morgan and Barbara Boatman.

In observance of National Beauty Salon Week, sponsored by the National Hairdressers' and Cosmetologists Association, more than 65,000 beauticians throughout the country provide free services to the elderly and other shut-in persons, according to Earl Tucker, president of Affiliate 33.

"The institutional welfare program has always been a significant part of our affiliates' activities, especially during this special week," Tucker said today.

Proceeds from the show will be contributed to the Parents Committee for Special Education, a group which assists mentally handicapped children, the affiliate officer said.

Tickets for the event may be purchased at local beauty shops, or at the door. The admission charge of \$2 for adults and \$1 for children includes refreshments served at intermission, Tucker said.

Miss Elaine Smith, winner of the 32nd annual "Queen Contest," held in December, will be honored guest at Sunday's fashion show, with her sponsor, Alton Becker.

The Defense Department has operated a system of elementary and secondary schools overseas since the end of World War II. They serve as contact points for receiving the teachers' applications, and help in the recruitment of overseas teachers since 1963.

More than 160,000 children are enrolled in the 305 schools in the system, which has schools in 28 countries and territories.

In 10 Days Lose 10 Lbs. On Grapefruit Diet

HOLLYWOOD, CALIF.—This is the revolutionary grapefruit special diet that is exciting the nation. Thousands have been passing copies of it from hand-to-hand in offices, plants, and factories throughout the country.

Because this diet really works, we have testimonials reporting on its success. If you follow it exactly, you should lose 10 LBS. in 10 DAYS. No weight loss in the first four days — but you will suddenly drop 5 lbs. by the 5th day. Thereafter lose a pound a day until the 10th day. Then you will lose 1 1/2 lbs. every two days until you get down to your proper weight. Best of all, you will have no hunger pangs. Revised and enlarged, this diet lets you stuff yourself with formerly "forbidden" foods, such as steak, trimmings, waffles, or fried chicken, gravies, mayonnaise, fish swimming in butter or vegetable oils, frankfurters, scrambled eggs and still lose weight. The secret behind this "quick weight loss" diet is simple. Fat doesn't burn. And the grapefruit juice in this diet acts as the "trigger" to start the fat-burning process.

You start yourself on the permitted food listed in the diet plan, and still lose unsightly fat and excess bodily fluids. A copy of this startling successful diet can be obtained by sending only \$2.00 to:

Firecracker 'Bomb' Goes Off in GC Store

A homemade "bomb" consisting of three to eight M-80 firecrackers went off about 5 p.m. in the canned goods section of the Belmore Tri-City Grocery, scattering canned goods and damaging labels. No one was injured.

Police were told no one was in the vicinity of that section of the store when the explosion occurred, and it was believed to be the work of a prankster.

Fragments were taken to the 50th Bomb Disposal Unit at the Granite City Army Depot, where the officer in charge identified debris as remains of firecrackers sold in Missouri around July 4th. He said the explosive charge could have blown the individual's hand off. He surmised three to eight of the firecrackers were touched off with a match.

There was no damage to the store fixtures.

Exemption Claims For Children Explained by IRS

A full \$600 income tax exemption may be claimed for a baby born any time during 1969 as long as certain tests are met, Jay G. Philpot, district director of Internal Revenue for central and southern Illinois, said today.

The basic requirement to claim a child as a dependent is that the parent must provide more than half of the child's support for the entire year. If a child is born during the year, his support test has to be met only after the time of birth.

The stipulation that a person cannot have income of \$600 or more a year and be claimed as a dependent by another taxpayer does not apply to a child who is either under 19 at the end of the year or a full-time student for some part of five months of the year.

When a child makes more than \$600, it is possible for his exemption to be claimed on different tax returns. If the child is required to file a return, he would claim an exemption for himself on his own return and his parents would still be entitled to claim an exemption for him on their return.

Publication 501, "Your Exemptions and Exemptions for Dependents," may be obtained free by writing Forms Distribution P. O. Box 1468, Springfield, Ill. 62705.

Reports were given by the secretary and treasurer, Mrs. Carole Poole and Mrs. Betty Arbeiter, and Mrs. Joyce Adams, secretary of the board of trustees of the ESA Home Foundation, reported on a recent meeting of the Foundation in Denver, Colo.

Philanthropic projects for February include the donation of old rugs and blankets to the Granite City Animal Shelter and a contribution to the Heart Fund. The chapter will hold a "bakeless" bake sale at its March business meeting.

A prospective pledge is to be invited to the chapter's social meeting Feb. 24. The group will hold a skating party, followed by refreshments in the home of Mr. Poole.

"Grow with Talents" was the topic of the educational program which followed the business hour and several of the members displayed art objects, hobbycrafts, needlework, and clothing made at home.

The hostess used a Valentine theme in the decorations and favors and refreshments were served to those mentioned and Mesdames Kathy Dohal, Mary Firtos, Mary Modica, Barbara Orris and Sue Sanasarian.

Sen. Smith Backs U. S. Anti-Pollution Plans

Speaking in Highland Park Tuesday night, U. S. Senator Ralph T. Smith urged U. S. Attorney General John Mitchell to "keep the heat on" polluters of Illinois waterways.

Mitchell said Monday that 11 Chicago area firms had been named in a criminal suit charging them with polluting Lake Michigan and the Little Calumet River.

Smith said polluters must "learn that the government means business," adding that "we must exert pressure to keep our waterways from becoming open sewers."

Praising President Nixon's pollution program, disclosed Tuesday, Smith said one of the most significant portions is a "major device to allow cities to finance local pollution control facilities."

Cities would issue bonds at interest rates comparable to commercial bonds, the senator noted; the difference between the normal municipal bond rate and commercial bonds would be subsidized by the federal government.

Smith spoke yesterday in Princeton and LaSalle.

Jaycees Join Campaign To Learn POW Names

Granite City Jaycees have voted unanimously to support a campaign to reunite the families of servicemen who are missing in action or known to be prisoners of war in Vietnam. Stanley Noe, Jaycee president announced this week. The Jaycees have offered to provide billboard space for poster displays which urge public support of the "Reunite Our Families Group," an organization of wives and parents of U. S. Armed Forces personnel who are either missing or are prisoners in Vietnam.

The billboard donation was authorized after the Jaycees heard a presentation by Mrs. Sandy Innes of Granite City, whose husband, Lt. (jg) Roger B. Innes, a U. S. Navy flier, was declared missing in action during an overland air mission in December 1967. The Naval officer had arrived off the coast of Vietnam on an aircraft carrier just five days earlier.

Mrs. Innes, an ROFG member, said the organization is seeking public backing to obtain the names of U. S. servicemen held prisoner from the Hanoi government. The ROFG campaign billboards were first unveiled Jan. 10 in the Chicago area.

Noe also announced the appointment of Richard Kacera to head the local billboard committee. Location of the posters has not yet been determined, but is expected to be in the immediate Granite City area, the chairman said.

In addition to the local club, assistance in the ROFG billboard campaign also has been offered by the Belleville Jaycees, who plan to donate one or two spaces for the project.

Granite City Jaycees have agreed to help promote a public letter writing campaign in support of the ROFG program when the project is officially launched, it was learned.

HIGHEST SCOUT COUNCIL AWARDS have been presented to three adult scouters, shown with their Silver Beaver pendant certificates. Pictured, left to right, are G. Rollin Henn, Cahokia

Mound Boy Scout Council president; George Hughes, Greenville, Ruymond Gaudette sr., Granite City, and Edward Hume, Edwardsville, the recipients; and William R. Monical, council scout executive.

Householders will be Own Census Takers This Year

The nation-wide census held by the federal government every ten years since 1790 will be taken this year on April 1 by new methods and procedures which officials hope will simplify the task for the many millions of householders who must cooperate in the vast undertaking.

The Bureau of the Census of the U. S. Department of Commerce which is responsible for completing the census has been setting up the machinery for the project since early this year. It will make the count through 395 temporary bureau district offices throughout the United States, each of which will cover an area containing approximately 500,000 persons.

District offices began opening in mid-January and the entire group was scheduled to be in operation this week. The Madison

and St. Clair county area census will be conducted out of a district office at Belleville which was opened last week. It is one of two St. Louis metropolitan area offices which is part of the St. Paul, Minn., region.

Officials point out that for the average American the census will be a simple matter, requiring only a few minutes to answer questions about himself and his housing on printed forms that will be mailed to each household. For 80% of the households there will be about 23 questions that require perhaps 15 minutes to answer. From the other 20% of the households there will be an average of 60 questions that will require about 45 minutes.

Information Confidential
For the individual, the census is a secret and no individual need fear he is exposing himself to public view, census officials explained.

The answers he gives about himself and his housing are held in strictest confidence. Census employees are forbidden by law from disclosing any fact about a person and would be subject to heavy fine and imprisonment for violation of the law. In processing the data, facts about individuals are computed in various ways to result in statistical totals that depict the state of the nation.

These statistics are invaluable because they provide the platform of facts upon which the state plans for the future course of the nation, census officials noted. Many political determinations hinge upon the census count: official population figures are used to determine the apportionment of seats in Congress and in state and local legislative bodies and federal funds are allocated on the basis of census population figures.

Census by Mail
This year, the 65 million U. S. households will be their own census takers. Each household will receive a census questionnaire by mail on or about March 28 and will be asked to

fill it out as of April 1. These people will have no need to see a census taker unless they return the form incomplete, neglect to return it at all, or need assistance. The number of questions asked will be on the average the fewest of any census in the past century.

Householders in most of the large metropolitan areas will be asked to mail completed questionnaires back to their census district offices in a brown post-paid envelope provided for the purpose. It should be mailed

on April 1. In the remainder of the nation, people will be asked to fill out the form on April 1 and hold it until it is picked up by a census taker.

About 185,000 temporary workers will be hired by the bureau to take the census. Included will be 160,000 census takers called enumerators, 13,000 workers in the temporary offices and 12,000 crew leaders and supervisors.

Errors Delay Refunds On U. S. Income Tax

Early Federal income tax returns indicate that many taxpayers are making errors in claiming adjustments to their income which may delay their refunds, the Internal Revenue Service said today.

The term "adjustments," as used on the tax form, refers only to such pay, moving expenses, employee business expenses, and payments to self-employment retirement plans. The total of these items is entered on line 15b of the Form 1040, the IRS said.

Some taxpayers are incorrectly reporting on line 15b the total of their itemized deductions such as interest expense, state and local taxes, contributions, medical, or miscellaneous expenses. These deductions should be computed and entered on the appropriate schedule provided in the instructions.

The IRS also said that taxpayers are making mistakes by including as adjustments the exemption allowances for themselves, husbands or wives, child or other dependents. For taxpayers who use the tax table to compute their tax, the exemption allowance is already figured into the table. Taxpayers who use the tax rate schedule should make their computation on Schedule T, which is included in the regular tax packet.

To avoid errors in claiming adjustments the IRS suggested that taxpayers read the instructions carefully and make sure they have attached the proper supporting documents.

Son Arrives for Former GC Resident

Lt. and Mrs. James C. Calvert of Davis Monthan Air Force Base in Tucson, Ariz., are announcing the birth of their first child, a son, Feb. 8. The new arrival weighed six pounds, two ounces. He has been named Christopher James.

Commendation Medal is Awarded to GC Marine

The Navy Commendation Medal with Combat "V" recently was awarded Marine Cpl. Albert H. Baker Jr., for "meritorious service . . . in connection with combat operations against the enemy in the Republic of Vietnam . . ." Lt. Col. B. F. Read Jr., commanding officer, 4th Battalion, 10th Marines, announced the award this week.

Cpl. Baker, 21, a son of Mr. and Mrs. Albert H. Baker, 2313 Edwards street, returned from Vietnam in November, after serving 13 months overseas with the Third Marine Division. Currently stationed at Camp Lejeune, N. C., he will shortly be released from the service.

A 1966 graduate of Granite City high school, Cpl. Baker was employed at Chevrolet Co. St. Louis, prior to enlisting in the Marine Corps on March 13, 1968. He was assigned to Vietnam in October of the same year.

The citation accompanying the Navy Commendation Medal reads in part:

"For meritorious service while serving in various capacities with First Battalion, Twelfth Marines, Third Marine Division in connection with combat operations against the enemy in the Republic of Vietnam from Aug. 18, 1969 to Sept. 20, 1969.

"Throughout this period, Cpl. Baker performed his duties in an exemplary and highly professional manner. Initially assigned as a section chief, he expeditiously accomplished all assigned tasks and consistently provided his unit with outstanding support. Serving additionally as the motor transport

chief, he skillfully supervised the proper maintenance repair of his unit's wheeled vehicles and contributed significantly to the high motor vehicle availability in part.

"Cpl. Baker displayed exceptional leadership ability as he organized his men into a highly trained Gun Section and enabled his battery to continuously provide effective fire support for maneuvering infantry units during Operation Oklahoma Hills.

"As a result of his diligent and resourceful efforts, the operation effectiveness of his unit was greatly enhanced. By his initiative, superb professionalism and loyal devotion to duty, Cpl. Baker earned the respect of all who served with him and he upheld the traditions of the Marine Corps and the U. S. Naval Service."

County Nursing Home Bids to be Opened Feb. 19

A Feb. 19 date has been set for opening bids to convert the Madison County Tuberculosis Sanatorium at Sandusville for use as a County Nursing Home. The estimated cost is \$350,000.

The remodeling will include installation of additional beds and sanitation facilities, and room arrangements are to be redesigned to meet state standards for nursing homes. The plans have been approved by the Illinois Bureau of Health Facilities.

The present county nursing home is licensed to accommodate 50 resident patients. The remodeled sanatorium will have facilities for 96.

Plans call for the work to begin in March and be completed by the end of 1970 or early in 1971. The costs will be paid from funds accumulated by the sanatorium board in recent years with the decline in the number of tuberculosis patients.

Truck Bends Street Sign, Shoves Auto

A tractor-trailer truck driven by James Adams, Wood River, turning left off Madison avenue, ran over the curb, struck and bent a street sign at 21st street, then crossed 21st street and struck the left front of the parked auto of Leo E. Robertson, 2300 Nevada avenue, pushing it back four car lengths on Monday.

The driver then parked the truck on a service station lot and walked away. He was identified by the Illinois-Pacific Coast Transportation Co., owner of the truck.

Counselor on Drugs To Speak at Church

Irving Miles, a former pusher, addict and ex-convict now working as a counselor with Coordinated Youth Services while studying at SIU-SW, will speak at the 10:30 a.m. service Sunday at the Pontoon Beach Church of Christ, 4039 Pontoon Beach, the church minister, Rev. Lowry Suberland, has announced.

The topic of the talk will be "Drugs."

Maxvill, James to Speak At Church Lenten Dinner

Two well-known baseball personalities, Dal Maxvill and Charlie James, will be the featured speakers at the St. John United Church of Christ Lenten service on Wednesday, Feb. 18 at 7:30 p.m.

Activities will begin with a family style pot-luck dinner at 6 p.m. in Fellowship Hall. The Senior High Youth Fellowship will be in charge of the dining room. Interested persons who are unable to attend the dinner are invited to the program, which will begin about 7:30 p.m.

Dal Maxvill, a native Granite Cityan, has played regular short-stop for the St. Louis Cardinal Baseball team for the past several seasons, and is generally recognized as one of the top defensive shortstops in either league. Following his presentation, Maxvill will introduce a business associate, Charlie James, who like himself, holds a degree in electrical engineering from Washington University.

James, from Webster Groves, Mo., played football and baseball at Missouri University. He signed his first contract with the baseball Cardinals in 1958. Before being brought to St. Louis in 1960, he played at Houston, Rochester and Charleston.

He distinguished himself as a regular outfielder for the Cardinals from 1960-64. During the 1965-66 season he was traded to the Cincinnati Reds.

Currently he is serving as vice-president of the Branch Rickey Chapter of the Fellowship of Christian Athletes, a spiritual organization for athletes and coaches, and through them to confront the youth with the challenge and adventure of following Christ, participating in the church and serving Him through a chosen vocation.

Other "outstanding" athletes who are members of the Christian Fellowship include Bob Pettit, Jerry Stovall, Bill Bradley, Fran Yarkenton and Bobby Richardson.

A special invitation is extended to the youth of the Quad-cities to hear these two outstanding Christian athletes.

Rezoning, Permit Pleas Rejected By Plan Board

Pleas for rezoning of three parcels of property and a request for a special use permit to operate a beauty shop in a residential area were rejected Tuesday by the Granite City Plan Commission which will recommend to the city council that it concur in denial of the requests.

In a fifth case in which rezoning to a C-2 district is sought for a tract of land south of Pontoon road at Maryville road for possible development as a shopping center, the commission tabled the matter at the request of the attorney, but not until the board heard several objectors and received a petition bearing 75 signatures of area residents protesting such development.

The petitioner for rezoning in that case, the First Granite City National Bank, had requested rezoning of the tract from the present residential R-3, 4 and 5 zoning status to a C-2 district. The petition protesting approval of the rezoning request was given the commission by Thomas Byer, 2453 Pontoon road, who said, "We have shopping centers all around us. We don't need one on every corner."

Byer said the petition was signed by 2235 West 22nd street, at 3:50 p.m. Monday at 21st and State streets, and to Mavisius I. Moore, 2413 Rock road, at 3:20 p.m. Monday at West 20th street and Rock road.

Don E. Archley, 2608 Angela drive, was issued a stop sign violation ticket at 1:35 a.m. Tuesday at 23rd and Iowa streets.

Don E. Archley, 2608 Angela drive, was issued a stop sign violation ticket at 1:35 a.m. Tuesday at 23rd and Iowa streets.

The rezoning and annexation was petitioned by Leo Wolf who asked that the tract be rezoned from an R-1 residential district to a B, business district. Three objectors spoke against the proposal for locating a mobile home park in the area, pointing out that the area has been limited thus far to homes and apartments in the \$20,000 to \$35,000 class. The area now is located within Namecki subdivision.

A request by George Taylor for a special use permit for operation of a beauty shop at his home at 2933 Dale avenue also was denied by the commission following a hearing in which Taylor admitted he had operated the beauty shop for the past eight years without a permit and had encountered no difficulty until neighbors recently raised objections.

The owner and occupants of adjoining property testified that parking created a problem. Taylor said he wanted a permit to operate only until he could sell his property which has now been put on the market because of objections to the beauty shop.

Other requests denied by the commission was a petition by Anthony Vesel for rezoning of property at 2161 Pontoon road from R-2 residential to a C-2 commercial district and a petition by Richard and Carol Davis and Walter Rozycski and John Krevovich for rezoning of property located at 2133 Johnson road from R-2 to a C-1 district.

REWARD YOURSELF WITH A STATE SENATOR WHO HAS EARNED A REPUTATION FOR LAW AND ORDER AND FAIR TAXATION

VOTE FOR DICK MUDGE

DEMOCRATIC CANDIDATE 53rd SENATORIAL DISTRICT

- As a State Representative, Dick Mudge's opponent co-sponsored or voted for the following bills:
1. HOUSE BILL #2936 which would allow taverns to sell liquor on election days, while the polls were open.
 2. HOUSE BILL #2485 which would permit public officials, including city officials, state's attorneys and sheriffs, to own or operate a tavern or liquor business.
 3. HOUSE BILLS #129, 131, 132, and 133 which would permit cities and counties to increase their local sales tax by 25%.

During his term as state's attorney Dick Mudge ended the outrageous influence of the underworld in Madison County. During this same period his opponent was keeping a tavern in Edwardsville, and apparently developed an enthusiasm for special legislative favors to tavern keepers from this background. Special favors may also explain the reason Dick Mudge's opponent has been so strongly promoted by Chris Costoff of the Venice-Madison political organization. Costoff, whose wife operates a tavern in the city of Madison, is a city official of that city.

It is far more difficult to understand the enthusiasm of Dick Mudge's opponent for increasing the sales tax. This direct increase in the cost of food, clothing, and all other essentials is an unfair burden on the average wage earner, and an intolerable burden on those who have retired. If you are genuinely concerned about law and order, as well as a fair tax program -- DICK MUDGE IS YOUR CANDIDATE!

REHEARSALS START for dancers who will appear in the East Bank Players' initial production, "Guys and Dolls," set for April 3-4, at the Granite City Elks Club ballroom. Front row, left to right, Anita Gasparovic, Bev Henderson, Peggy Flach and Ruth Lamb. Second row, from left, Gail Hamilos, Diane Nocheff and Doris Ferro.

Local East Bank Players Rehearsing 'Guys and Dolls'

The East Bank Players, the Quad-Cities newly-formed community theater group, today announced its premiere production—"Guys and Dolls"—will be staged Friday and Saturday, April 3 and 4, at the Granite City Elks Lodge ballroom, 1329 Niedringhaus avenue.

The musical comedy will be presented to the public via a modified "arena staging" method, which offers the audience closer proximity to the performers than conventional theater. Cabaret-style seating arrangements will enable patrons to enjoy beverages and snacks prior to showtime and during intermission.

Singers, Dancers
Bill and Mili Hoelscher, who are producing and directing the Players' first presentation, have announced the selection of several local women to be featured as the "Flot Box Girls," a group of singers and dancers in the show's nightclub sequences.

The dancing chorus will include Cathy Sternberg, Ruth Lamb, Gail Hamilos, Peggy Esenpreis, Debby Bair, Peggy Flach, Doris Ferro, Bev Henderson and Anita Gasparovic.

Portraying the leading role of Miss Adelaide, star of the review, is Diane Nocheff, well-known to local audiences for her roles in various musical productions of the Collinsville Masques and appearances in the St. Elizabeth Hospital's "Fractured Follies."

Miss Nocheff, a third grade teacher at Marshall school, has appeared in a Keds variety series, Southern Illinois University musical reviews and at St. Louis supper clubs.

Professional Dancer
The casting directors note that the entire women's dancing group is from Granite City, with exception of Mrs. Esenpreis, a Venice resident. Before she retired to devote herself to homemaking and rearing a family, Mrs. Esenpreis was a featured professional dancer with the Franchon and Marco circuit in Los Angeles, Calif. Currently, she is on the staff of Weight Watchers and works as a Pink Lady volunteer with St. Elizabeth Hospital Auxiliary.

Nameoki Nearing Year's End With \$26,561 Balance

Nameoki township, which will end its 1969-70 fiscal year at the end of this month, has balances in its five fund accounts totaling \$26,561, according to reports presented Monday night in a regular meeting of the town board.

Town Clerk Louis Whitsell reported that prior to Monday night's meeting, there were balances of \$30,469 in all five accounts. The board approved bills amounting to \$3908 against these accounts, leaving the aggregate balance of \$26,561.

Balances, prior to the bill payment, included \$7904 in the town fund, \$2961 in the road and bridge fund, \$10,667 in the special hard road fund, \$4974 in the municipal retirement fund and \$3961 in the general assistance fund.

Bills approved Monday night included \$2777 in the town fund, \$67 in the hard road fund and \$1063 in the road and bridge fund for the total of \$3908.

Approve Additional Bond

The board, in other business Monday night, approved additional bond for Edgar Patrick, Nameoki township collector who took office Jan. 1, and agreed to check on prices for installation of a new metal jam and door at the town hall offices.

Town Auditor Robert Beedle asked Township Atty. William Schooley for an opinion on the legality of allocation of part of the excess fees by former Town Collector Gene Rotter to the road and bridge fund. Beedle said that Rotter, who was succeeded in office by Patrick, has turned over his books to the town board showing about \$14,000 in excess fees to the town fund.

Beedle said this did not constitute all of the excess fees. Supervisor Harry Briggs explained that the excess fees were "split up" by the former collector and paid in part to the road and bridge fund. Beedle said he did not believe this to be legal procedure and requested a ruling. Schooley asked for time to prepare the ruling in writing.

Michael Ropic, a township resident who lives on Village lane, complained that trash and rubbish is being dumped along Carrell road and asked that the board request the highway commissioner to post the area. Briggs said repeated efforts have been made to halt dumping in a number of areas that "it is hard to do unless you catch them in the act."

Local Firm to Erect Alton YWCA Addition

The Leo Wolf Co. of Granite City has been awarded a contract to remodel and to construct an addition to the existing YWCA building at 304 East Third street, Alton, with a bid of \$235,571. Eight other construction firms submitted proposals, according to Mrs. George Graves, chairman of the building committee.

The addition is to include two large meeting rooms, offices, rest rooms and storage on the same level as the present first floor. The second floor will include two large meeting rooms, the youth secretary's office, rest rooms and storage areas.

Remodeling will include new kitchen equipment in the existing first floor kitchen, a new vending room off the existing first floor lobby and a new reception desk for the first floor lobby. On the second floor, there will be a new kitchenette and vending room adjacent to the new addition.

A spokesman for the local construction firm said work on the addition probably will be started next week.

ABOUT THIS QUESTION:

"Our 50 year old home was badly damaged by fire. It will cost us \$5000 to repair the home—our fire insurance is for \$12,000—but the insurance company allows only \$2000 damage, as the depreciated value of the burned-out portion. Is it possible to day to insure a home to full replacement value?"

MADISON HIGH SCHOOL CHAMPIONS are shown being honored by Madison Lions. Pictured, left to right, are: John Ervin, Bob Scott and Tony Young, football tri-captains; Donald Bridick, vice-president, and Matt Ozanich, president, of the host Lions club; Larry Wilson, defensive star of the football Cardinals; and Al Vonder Haar, MHS grid coach.

Wilson Speaker — As Club Honors MHS Students

Madison Lions played host to the champion Madison high school football team, cheerleaders and coaching staff Feb. 5. Seventy-eight Lions and guests enjoyed a family-style chicken dinner.

Featured speaker was Larry Wilson, star safety of the St. Louis Cardinals professional football team. Wilson emphasized to all present the need to "work hard if you plan to succeed in anything."

Being a winner, according to Wilson, involves about 10% ability and 90% attitude and hard work. He also stressed the need for education in today's complex society.

In addition to being a pro football player, Wilson has a bachelor's degree in education. Members of the Madison team and Lions spent almost an hour asking technical football questions of Wilson.

At the conclusion of his talk, Wilson received a standing ovation from the audience. He then spent additional time answering questions from the boys and their coaches after the meeting was adjourned.

Emblem to Be Received
Head Football Coach Al Vonder Haar spoke briefly to the group and showed a special athletic championship emblem all members of the team will be receiving in a few weeks.

General chairman of the dinner was Bob Rogers, immediate past president of the Madison Lions. He was assisted by Donald Bridick, first vice-president of the club, who was responsible for securing the speaker. Lion Mick Strange also served on the committee.

Matt Ozanich of Granite City is president of the club, which has been called the most youth-oriented Lions club in Illinois.

In addition to regular banquets honoring Madison high school athletes, the club is sponsor of the Klouby Baseball Leagues summer program.

The most recent youth program, which will continue on a year-round basis, is the co-sponsorship with the Madison police department of Explorer Post 10-4.

Concern on Air, Water Pollution Shown by Student

Concern about air and water pollution is extending to college students, including Stephen L. Lewis of Madison, who is attending Southern Illinois University at Carbondale.

He is vice-president of the Student Organization Against Pollution (SOAP) which "is concerned with the alarming misuse of our country's natural resources and particularly with the pollution of our air and waterways."

Lewis plans to transfer to the local Southwestern campus in April and will begin organizing and advertising a new SOAP chapter here. He has written an article pertaining to the topic which has received favorable response from members of SIU's Student Government. It follows:

"It has been more than 60 years now since air and water pollution have become major issues of politics, economics and public health. Since then many thousands of dollars have been spent on studies to determine the extent of the pollution problem in the United States, and since that time the problem has become worse and worse.

Pollution levels in our air and water supplies have reached critical levels and still no major action has been taken to alleviate the problems. The only thing to come of the studies have been words, words and promises; promises but no action.

"We as concerned students and citizens are tired of hearing about committee reports and government studies. We don't need any more studies, any more words on paper, we

need and want action and we want it now.

"Air and water pollution are killers, and industries that continually attempt to evade effective pollution control measures are accomplices in the outright murder of hundreds of innocent people every month.

"Lung cancer and heart disease are two of the major killers of adults in America today. It is a proven fact that the pollutants which industry pours into our air and water supplies are major contributors to these and many other crippling diseases.

"It seems, however, that the only reason industry is unwilling to practice more stringent air and water pollution control is their unwillingness to part with a few of their precious, yet ever increasing, profits.

"We of SOAP don't think this is a very good reason. As concerned students and citizens, we of SOAP intend to fight the industrial complex and the seeming apathy of government until more effective air and water pollution controls are reality.

"If something isn't done and done soon, we may all suffocate in a heap of industrial waste."

Two GC Achiever Firms Rank Near Top in Sales

Two of the 17 Granite City Junior Achievement companies are among the top 15 companies in sales in the Mississippi Valley area.

AMSCO, which meets at the local JA business center on Tuesday nights, ranked 10th in sales among 267 companies in the Mississippi Valley area. AMSCO had sales of \$1033 on Feb. 2.

JACO's sales totaled \$1032 on the same date. JACO meets Wednesday evenings here. Its sales total to date places it 12th in the region.

AMSCO is sponsored by American Steel Foundries and JACO by Granite City Steel Co. In addition to excelling as top companies in sales, AMSCO and JACO have placed high in individual sales competition.

Karen Odum of AMSCO is a member of the 520 Sales Club. Achievers who have attained membership in the \$100 Sales Club from AMSCO are Roberta Middleton and Ricky Rose. JACO Achievers in the \$100 Sales Club are Brenda Picker, Robert Schaus and Bruce Wyatt.

Others in the \$100 Sales Club include Clint Green of Electro-Finley and Donald Simpson of Charlie Brown's Fudge Co., Al Fowler and Mary Miller of Junior Krafts and Deborah Cox of the General Candy Co.

They learn first hand how business operates and how the free enterprise system creates jobs, payrolls and products where none existed before.

Each Junior Achievement company is liquidated at the end of a 30-week period of operation in May.

The youth is to be contacted by the Air Force as to whether he wishes to pursue the nomination to the academy.

Women Needed for Jobs In U. S. Air Force

Young women are urgently needed to fill vital jobs in the U. S. Air Force, according to Sgt. H. W. Keith, recruiter.

Many of the jobs are so unique and new that no comparable job can be found in the civilian work force, he said, and others formerly restricted to men are now available to women.

Women members of the Air Force may now request an assignment to many overseas bases that in past years were available only to men. WAF are now assigned to all combat areas in the Far East and western Europe where the Air Force has an interest.

Fringe benefits include 30 days paid vacation each year, free medical and dental care, free education assistance, free housing and food or a paid allowance, clothing and clothing maintenance.

Full information may be obtained by contacting Sgt. Keith at his office at 650 Missouri avenue, East St. Louis, or calling 274-1244.

ISU Offers Summer Course to HS Juniors

A summer opportunity for outstanding high school juniors to participate in a full-fledged college experience will be offered June 15-Aug. 7 at Illinois State University.

Applicants, who should rank in the upper 10% of their class, may register for up to six semester hours of work in general education, according to Dr. Theodore Sands, associate dean and director of ISU honors programs.

The credits will become regular credits if the student later enrolls at ISU or forwarded for consideration to any other college or university.

The students will be treated as regular university students. They will live in college residence halls and participate in university recreational, sports and cultural activities.

Dean Sands points out that it is also possible for well qualified high school students to be admitted to Illinois State University as full time students prior to graduation from high school.

Inquiries and requests for application forms may be obtained from Dean Sands, Honors Program, Illinois State University, Normal, Ill. 61761.

'Soggy' Approach To College Hijinks

Did you think college hijinks went out with goldfish swallowing and phone booth packing? Well it has not, at least not insofar as an Illinois State University freshman from Chicago Heights is concerned. He has just laid claim to the "world record for showering" after spending 73 hours "under water" in a shower stall in his residence hall.

Mark Giffand, 18, who accomplished the soggy feat said, "It was something different. Besides, there was nothing else to do, since we were on our mid-year break."

The old record of 72 hours, 8 minutes was held by Jane Hoster, a University of Illinois coed who set the mark in 1965. "The way I figured it," said Giffand, "we wouldn't let a broad at the U of I beat out ISU."

He was able to eat his meals off a table set up at the edge of the shower, still managing to fulfill the "official" rules of showering a part of the person's body by water at all times. At one point, things got to be a bit more chilling than usual when the Walker Hall showers ran out of hot water for about two hours, leaving Mark sitting in a trickle of ice water.

Professor Writes Movie Art Form Book

"A fine film consists of the cumulative development of the tension between theme and plot," G. W. Linden, SIU-SW professor says in his new book, "Reflections on the Screen."

The book on the movie as an art form, is being released by the Wadsworth Publishing Co. of California.

After confirming that today the motion picture is a genuine art form—that people go to the movies "not to see anything but to see something"—Prof. Linden examines the unique form, function, material and philosophical psychological background of films.

Pre-publication comments on the book refer to the work as "intelligent, well-informed and stylish... a real find... a provocative combination of new sights, restatements and clarifications of theories in aesthetics."

Before joining the SIU faculty in 1962, Prof. Linden taught at North Texas State. He has authored several articles and written book reviews for the Saturday Review and other publications.

On SIU-SW Dean's List

Terry D. Gargac, 19, Gets Army Promotion

Army Specialist Five Terry D. Gargac, 19, son of Mr. and Mrs. Gargac, 2347 Rock road, and the late Mitchell "Mike" Gargac of Granite City, recently completed two specialized training courses at Fort Leonard Wood, Mo.

Currently, he is assigned as an acting sergeant at the Missouri base.

Both instruction programs were carried out under the supervision of the Fourth Engineers Advanced Individual Training Brigade, which recently sponsored a graduation ceremony and dinner honoring the new operating personnel.

The local serviceman's older brother, Mitchell Gargac, 27, received his discharge from the U. S. Army on Dec. 31, after serving 18 months of his enlistment time with a military police unit in Germany.

Antique Valentines on Display at Monticello

A rare collection of antique valentines is on display in Hathaway Hall at Monticello College through Feb. 25 from 7 to 8 p.m. weekdays and 1 to 5 p.m. weekends.

The exhibit of historic valentines, dating from the early 19th century, is on loan from the Hallmark historical collection, the largest and most valuable collection of antique cards in the world.

A similar display has appeared at the Smithsonian Institute and is now touring America's museums and galleries under the auspices of the Institution.

Among the cards being shown is an early Esther Howland original. Miss Howland, who published the first love valentine in this country, commanded as much as \$35 apiece for her valentines in the mid-1800's. She used leathers, mirrors, silk, lace, gold, and silver as well as intricate designs to form three-dimensional scenes.

The exchange of love messages on St. Valentine's Day dates back to ancient Rome, according to historians at Hallmark. Legend has it that the day originally honored a young Roman priest named Valentine—who was martyred on Feb. 14 in 270 A.D. for refusing to renounce Christianity.

In prison he composed a farewell message to his father's blind daughter who had befriended him, signing it "From Your Valentine."

Prof Authors Book Published in Spain

Helen Goode, associate professor in Southern Illinois University-Southwestern's Humanities Division, is the author of a book recently published in Spain.

Entitled "La Prensa Ritorica de Frey Luis de Leon on 'Los Nombres de Cristo,'" the book is a revision of her doctoral dissertation at the University of Kansas. Translated, the title means the literary style of Frey Luis de Leon used in his book, 'Names of Christ.' Miss Goode's book was published by Editorial Gredos, S. A., Madrid, which one of her colleagues calls "the most prestigious publishing house for literary criticism in Spain."

The professor describes her book as "a unique, stylistic study, using the scientific approach in literary criticism, and dealing especially with prose rhythm."

The book will be marketed in Spain and Latin America. Prof. Goode said, but will also be available in the U. S. It is a good reference for courses in Spanish literature and should interest scholars and teachers in the field of Spanish literature.

Leftover Pills Could Prove to be Dangerous

Dangers in use of leftover pills found in the medicine cabinet were outlined in a health report received this week at St. Elizabeth Hospital from the Illinois Department of Public Health.

Text of the report entitled "Throw away those old pills," follows:

Attempts at self-medication through the use of leftover pills and capsules from previous illnesses are a continuing danger. In fact, prescribing old pills for yourself or your family without the professional advice of a physician can be fatal. People indulge in self-medication for various reasons. The most common is that there may be a stock-pile of unused drugs in the family medicine cabinet. The mere presence of an abundance of old pills and capsules is tempting. And, there's the possibility that a small child or your own or a visitor's could get hold of these pills thinking they are candy.

Following are suggestions regarding the storage and discarding of old pills:

Do not change pills from one container to another storage. It could lead to taking the wrong drug.

Keep pills on the top shelf of the medicine cabinet away from the reach of youngsters.

Do not borrow drugs from a friend because they may "look like" those prescribed for you by a physician. This can be dangerous because many pills and capsules are similar in appearance. Even if you get the right drug, the strength may be different from your needs.

Specific drugs are used to treat specific diseases. Take for example antibiotics.

You should never administer antibiotics to yourself without a prescribed reason for taking them. They should be taken in exact accordance with medical instructions from your physician.

Any antibiotics left over after a course of treatment should be destroyed since they only have a limited period of effectiveness.

Prescription labels are almost always dated by the pharmacist. When you buy non-prescribed medicines put the date of purchase on the label. Throw away any pills that are still on hand two years after dating.

State Sales Tax Deduction Table In 1040 Brochure

The amount Illinois taxpayers can deduct for sales tax on federal tax returns can be found in tables printed in the 1040 tax instructions.

Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, said the tables show the sales tax deduction by family size and income.

The table is based on consumer spending patterns and shows the average sales tax paid by Illinois residents, he said.

The sales tax on automobiles purchased is not included in the table. Taxpayers who bought cars in 1969 may add deductible sales taxes paid on them to the amount shown in the table.

The table is furnished as a guide for the convenience of taxpayers who do not keep detailed records of payments. Taxpayers who prefer to deduct the actual amount of state sales taxes paid during the year should have records as proof of payment, Philpott said.

GI Insurance Dividends will Average \$120

The Veterans Administration will pay \$14,369,889 in GI insurance dividends this year to 233,785 veterans in Illinois, according to John B. Naser, VA regional office manager in Chicago.

Naser said these dividends are part of the \$254 million in dividends the VA began mailing Jan. 1 to 4,191,200 veterans with world war I era U. S. government life insurance (USGLI) and world war II era National Life insurance policies (NSLI). He added that 225,083 veterans in Illinois with NSLI policies will receive \$13,278,480 in dividends averaging \$58.

The 8702 holders of USGLI may look forward to \$1,091,400 in dividend checks, the average amount of which will be \$120 according to Naser.

Larger interest earnings in the USGLI and NSLI funds made this year's increased dividends possible, the VA regional office manager said. He pointed out dividend payments will be automatic, and consequently there is no need to write to the VA to receive them.

GC Rotarians Hear School Official

Dale Rea, administrative assistant to superintendent of School District 9, was guest speaker at the Granite City Rotary Club luncheon meeting Tuesday at the YMCA.

His topic was "Government Funds for Schools." Rea said he was in Washington, D. C., in January to contact representatives when the president announced his intention to veto the bill on Health, Education and Welfare that was in Congress at the time.

He stressed that government funds play an important part in school budgeting, and that in the case of the local budget it represents 46% of the total. It is from Impact Aid, Impact Aid is paid when parents of school children are employed at a government installation.

Last year \$198,000 was to be paid in Impact Aid and only \$169,000 was received. The loss of such an amount makes it even more difficult to balance the budget for current expenses, he explained.

Rea urged local residents to notify their representatives in Congress as to their opinions on such bills and this would do more good than the school officials can accomplish.

Donald Adams was appointed to serve as chairman for the annual Modern Living Show to take place in late August.

Parked Auto Struck

After making a left turn into the 2400 block of Illinois avenue Monday, an auto driven by Kenneth E. Hoffmann, Florissant, Mo., struck the left rear of the parked auto of Larry McMurtrey, 2037 Dewey avenue. Hoffmann said he was forced to swerve by another car and slid on ice.

Eagle Park Group to Continue Center Work

A gift of roofing materials and shingles donated to the Eagle Park Improvement Association by the O'Neil Lumber Co., East St. Louis, will enable construction to resume on the Eagle Park community center as soon as weather permits, Eddie Lee Salmond, association president announced this week.

The 26x48 concrete block structure, to be brick veneered when money becomes available, is being constructed under the supervision of Clinton Thurmon, association vice-president.

Upon completion, the public center will be named "Steele Hall" in honor of Mr. and Mrs. W. J. Steele of Granite City, who assisted the community in establishing a park and playground area.

The association president noted that more than \$3000 already has been put into the building and an additional \$3000 probably will be necessary to finish the project.

All labor is donated by Eagle Park residents and cash contributions have been received from individual teachers and board members in the Venice school systems. Mayors Stephen Maerz and Dr. John E. Lee, the Democratic political organizations; Schermer Bros. Supermarket proprietors; and Madison County Sheriff George Musso.

Salmond said that the newly-organized Women's Association has agreed to cooperate with the association in projects directed toward completing the community center and beautifying the Eagle Park area in general. Auxiliary members also have indicated a willingness to assist in securing playground equipment and other recreational facilities for the young people, he added.

Charles Maple, who is head-

ing a drive for installation of traffic signal lights at Highway 200 and Harrison street, reported this week that 173 persons have signed petitions supporting the request. He noted the petitions have been mailed by Venice school authorities, who also are backing the demand for signal lights, to Lt. Gov. Paul Simon and Robert Krost, district highway engineer.
